

Pavillion Side Table

Pavillion Side Table

The Pavillion Side Table is a premium addition to any teak garden furniture ensemble, combining elegant craftsmanship with unmatched durability. Expertly handcrafted in Jepara, Indonesia a region globally renowned for its woodworking tradition this piece is designed to meet the highest standards of outdoor furniture quality and style.

Constructed entirely from solid teak wood, the Pavillion Side Table is not only visually warm but also inherently strong. Teak is naturally rich in oils and resins, making it one of the most weather-resistant hardwoods available. This ensures the table can withstand sun, rain, humidity, and even salty air, making it ideal for garden areas, villa projects, hospitality spaces, and outdoor lounges. The table's design is clean and functional, with precise lines and a symmetrical form that blends seamlessly with a variety of outdoor setups. The top surface is spacious enough to hold drinks, books, or decorative items, while the lower shelf offers practical storage space without compromising the table's sleek silhouette.

Finished with a fine-sanded touch, the wood maintains its authentic grain and warm tone, allowing the natural beauty of teak to shine through. No heavy coatings or artificial colors — just pure, refined wood that reflects timeless quality and modern simplicity. As part of your teak side table collection or as a stand-alone accent piece, this item is perfect for resort owners, villa designers, landscapers, and project-based buyers who value reliability, aesthetics, and sustainability.
